

Montana Professional Engineers Hall of Fame

John H. Morrison, P.E., L.S.

Montana Professional License No. 1ES

- * Graduate, Montana State (College) University, with Honors
B.S. Degree, Civil Engineering, 1927; Professional Civil Engineering Degree, 1931
Member: Tau Beta Pi, Phi Kappa Phi, and Chi Epsilon honoraries
Civil Engineering Instructor, MSU 1927-1930
- * Montana Department of Transportation bridge designer, resident engineer, chief bridge designer, and head of the Bridge Design and Construction Department (1930-1945)
- * Founded Morrison-Maierle, Inc., 1945
- * Honorary Degrees: Doctor of Engineering, Montana State University, 1968
Professional Engineering, Montana College of Mineral Sciences and Technology, 1966
- * Montana State University Society of Centennial Alumni, 1993
Past President: MSU Alumni Association; MSU Endowment and Research Foundation
- * Helped establish the Montana Board of Professional Engineers and Land Surveyors, 1947
First board chairman, board member for 22 years
Distinguished Service Award, National Council of Engineering Examiners, 1970
- * Active member and leader in: American Society of Civil Engineers (ASCE); National Society of Professional Engineers (NSPE), Montana Society of Engineers (MSE); American Water Works Association (AWWA), George W. Fuller Award, Montana Chapter Lifetime Achievement Award; American Council of Engineering Companies (ACEC); Montana Water Development Association
- * Respected engineer and leader in the fields of water and wastewater engineering, highway engineering, bridge and structural engineering, water resource engineering and surveying. Noted accomplishments include: the first community water or sewer systems in many cities and towns; Interstate Highway 15 - Wolf Creek Canyon (six Missouri River crossings in ten miles); Montana State Capitol seismic rehabilitation; Lake Koocanusa Bridge (2,437 ft. continuous steel deck truss); MSU Cobleigh Hall; and legislation creating County Water and Sewer Districts.
- * An advocate for safe community water and sewer systems, a visionary in early state highway development, an innovator in bridge design, a protector of public safety, a champion of the engineering and surveying professions.

Inducted November 15, 2002

Presented by the Montana Society of Engineers
A state society of the National Society of Professional Engineers
