

# Permeable Pavement: Design, Construction & Maintenance MASTER CLASS SERIES

with David Hein, P.Eng., Chair of the ASCE T&DI Permeable Pavement Structural Design Committee

Register Now to Save 20%!

## Permeable Pavement Master Class Series:

Live & On-Demand  
4-Session Series  
4 PDH / 0.4 CEU

### Single Session:

\$79.00 per location/1st logon and  
\$39.00 per additional attendee

### Master Class Series:

Cost: \$250.00  
(a 20% savings!)

### Groups:

\$250.00/location  
+\$149.00 each additional attendee  
(a 20% & 50% savings!)

## Live & On-Demand Permeable Pavement Master Class Series

with David Hein, P.Eng.  
V.P. of Transportation & Principal Engineer, ARA  
Chair of the ASCE T&DI Permeable Pavement Structural Design Committee

Join expert David Hein, P.Eng., V.P. of transportation and principal engineer at Applied Research Associates and chair of the ASCE T&DI Permeable Pavement Structural Design Committee for a comprehensive live and on-demand 4-session Permeable Pavement Master Class series exploring the ins and outs of permeable pavement design, construction, and performance, including:

- **On-Demand:** Introduction to Permeable Pavements
- **July 18:** Design and Construction of Permeable Pavements
- **August 15:** Impact of Permeable Pavement Design and Construction on Performance
- **Sept. 12:** Permeable Pavement Live Case Studies: the Good, the Bad, and the Ugly

In this 4-session Master Class Series, we'll work through the concepts, design, construction, performance, and real-world applications and studies of permeable pavement in a series of four 1-1.5 hour online presentations and Q&A sessions (4 PDH / 0.4 CEU total). Miss a session? Not a problem! All live online sessions will be recorded and available on-demand so you can learn *when you want, and where you want.*

### What Our Permeable Pavement Audience Has to Say...

- "Best permeable pavement seminar I've been involved with."
- "...an excellent mix of practical application & technical information."
- "Hein obviously has vast experience with pervious pavements. His ability to weave his personal experience into the webinar was very helpful."
- "Comprehensive & insightful. Great examples."

**Instructor:**  
**David Hein, P.Eng.**  
**V.P. of Transportation, Applied Research Associates**

David Hein is a principal pavement engineer and vice president of transportation with Applied Research Associates (ARA), a science and engineering firm specializing in practical solutions to everyday problems, is the current chair of the new ASCE T&DI Permeable Pavement Structural Design Committee, and will be speaking at StormCon 2013 (August 18-22). Hein has been involved in the design and construction of pavements, ranging from parking areas to major highways and airport runways. Hein is the past chair of the World Road Association Pavements Committee and has completed training courses for over 5,000 participants across North America.
